There's lots of room in the FORD V-8

EVERY ONE who steps into the Ford V-8 for the first time is surprised at the roominess. There's exceptional seat room, leg room and head room in all body types—the whole car gives you a feeling of substantial size.

The Ford gives you extra body room because of the compact design of the V-8 engine—an exclusive Ford feature at a low price. This V-8 engine takes up less space in the hood and permits more of the car's length to be used for passenger comfort. Many a

car selling at a higher price does not give you as much interior room as the Ford V-8.

Rear seats are wide and restful... three people can ride comfortably in the front seat of the Ford V-8. The Ford Touring Sedan, Convertible Sedan and Phaeton, and in the Coupe and Roadster. The seat of the Ford V-8 Roadster is 52 inches wide. A ride in the Ford V-8 will show that it combines unusual body room with fine-car performance, safety and comfort.
